

# SCDXC Newsletter

The Southern California DX Club is an informal group of dedicated men and women active in the amateur radio community who enjoy communicating over the air with other radio amateurs around the world.

The SCDXC strongly supports the DX Code of Conduct. Please visit their website:

[www.dx-code.org](http://www.dx-code.org)

The SCDXC newsletter is published monthly and released to everyone around the first week of each month. Amateur and DX related letters, news and pictures are welcome and will be published as time and space permit.

Articles will be republished with recognition of the author and the club. Reuse of copyrighted materials require the original author's permission.

Any questions regarding this newsletter or its articles should be addressed to the Editor, Bill, N6RV at:

[n6rv@scdxc.org](mailto:n6rv@scdxc.org)

Gatherings are informal and impromptu. Anyone interested in gathering can initiate one. Notify N6RV and an email will be pushed out to the group. If you would like to join that email list see our website or email N6RV.

Please check the club web site for events and details at:

<http://www.scdxc.org>

## Harvey Laidman, W8DX SK

W8DX, Harvey S. Laidman, became a silent key January 3, at the age of 82. He was a longtime supporter of The Daily DX. Licensed first, at the age of 12 in 1954 as WN8SLR, he passed general class in 1957 in Cleveland, Ohio at the Federal Building, with at the time the original W8DX, Richard Cotton, being the test administrator.

Harvey moved to California in 1963 and got his extra in 1972 and got the N6HL callsign in 1977, and "assumed the protectorship" of the W8DX callsign in 1997. Harvey had 5BDXCC, 5BWAZ, etc. An active DXer, of course, he was a past president of the Southern California DX Club.

Harvey was a film director and teacher of cinema and television arts at Cal State University Northridge. He preferred CW DXing and said "I am at the key in the early morning and late evenings." As of January, 2020, he was at a new QTH in the Simi Valley, California, and had 340/353 current/total in the DXCC mixed.

Harvey's mother was a librarian, his father an electrical contractor. As a young man, for three summers, he worked with the Kenley Players theater company in Warren Ohio. He studied electrical engineering at Kent State, then transferred to the University of Southern California, USC, for a cinema degree. He worked at station KTTV and Lorimar Productions. His first directing job was for The Waltons in 1975. For 30 years he directed hundreds of TV programs including Matlock, Seventh Heaven, Scarecrow and Mrs. King, Magnum P.I., Knight Rider, JAG, Tales of the Gold Monkey, Knots Landing, Paper Chase, Eight is Enough, Airwolf, Chicago Story, the Fitzpatricks, Lou Grant, and others.

## 2024 Holiday Party

# From the Editor

Hello Friends

We held a meeting on Monday, January 13th, to discuss the reorganization of SCDXC from a incorporated club with officers and events to a unofficial association that will meet in an informal and impromptu manner. Here is the result:

## Club Reorganization

**Objective** Continuity of the SCDXC tradition in an informal manner.

### **3 Officers (All Informal)**

President  
Membership / Newsletter / Zoom  
Webmaster

### **No formal Meetings**

Casual Zoom Meeting 2<sup>nd</sup> Thursday of every month  
Informal Holiday Gathering  
Impromptu Dinners possibly monthly

### **No Dues**

No Treasury  
Current treasury will be donated to a California Nonprofit

### **No Awards**

DXer of the Year  
Clipperton

### **No Donations to other Organizations**

WWROF (CQWW Plaques) donations picked up by individuals  
NCDXF & DXpedition donations made on an individual basis  
Any support of club functions will be by unsolicited individual donations

### **Keep Website**

Membership page and others will be updated

### **Keep Zoom**

Anyone who wants to meet on Zoom at any time contact the Zoom administrator in advance.

### **Consider Getting on DXChat Discord Server**

### **Restructure Newsletter**

See this newsletter  
No officer columns  
Anyone may contribute / write a column (Of course, subject to editorial review)

### **What will be dropped?**

Dissolution of SCDXC Nonprofit Corporation (IRS 501(c)7 & California 23701g)  
Dues / Treasury  
Regular Meetings and Events  
Prizes and Raffles  
Sponsorship / Donations  
IDXC Hosting (Suggest that the IDXC be incorporated separate from either club)

In general, everything else, the social and competitive aspects of the club will continue in an informal manner.

These were the results recorded from the meeting. If anything is missed or any other suggestions please contact us.

# Rumors on the Band

This month is loaded with African operations! Look towards the end of the month for a glut of DX!

The 2024 Get Schroeder Contest is now over. Peter Meyer, N0FW, again led the pack with 273 worked. Peter is followed by Will, K6ND with 271 worked. Of course, they are out of area members. Larry, highest scoring Southern California member came in third with 267 significantly below the top two.

All in all 15 members broke 200 and 38 worked DXCC! Way to go! We are still active and enjoying our hobby!

Looking at the overall standings the whole of ClubLog fall short of the 2023 total by 5. Also SCDXC fell short of the 2023 total by 7. This is in spite of the fact that the SFI was notably higher in 2024. It could be because of fewer DXpeditions or operations. It could be that regular operators in underrepresented countries became inactive. Who knows? What can be said is that is was not for lack of trying. DXers were very active and participation in DXing and DX contesting is at an all time high! Hopefully 2025 will bring more operations! In any event we will enjoy chasing DX!

## SCDXC Worked Not ClubLog

# What Did We Really Work?

2024 is over and the activity was spectacular. We finished December with 134 entities worked. That may seem to be low but historically December is a dead month evidenced by the lack of DXpeditions. The 10 Meter Contest helped the count. Again, this will probably continue for 2 more years. After that ... who knows? Keep on trucking!

## Who's on 6?

Six meters actually produced some new ones for the year in December! Unfortunately it was for the guys East of California or the locals who did not work 6 meters before in 2024. Nevertheless, we did pretty well this year. Combined we worked 112 entities. Southern California members worked 70 entities, at large members worked 100. Peter, N0FW, worked 25 unique entities, most of them were Europe and some were Africa. That was 21 more than anyone else worked! Of course, we few on the West Coast did not even hear the DX let alone hear him calling them, which is very common for 6 meters!! When Larry, K6RO, sets up his Maine station and all of us can use it the field will be leveled! Well, according to the current DXCC rules you only have to be within the boundary of the entity to count DXCC credits.

### Sarawak

Sarawak is located in northwest Borneo. It currently is a state of Malaysia along with Sabah which is to the northeast. The earliest settlement found in the area was at the Niah Caves which dates back 40,000 years. Archeology has dug up Chinese ceramics dating from the 8th century and beyond. It is an ancient Hindu-Buddhist kingdom that passed through several monarchs. It was first mentioned in Chinese historical archives in 518 A.D. The Bruneian Empire (1358-1888), a Malay sultanate came into power and established long term rule over the region. In 1841 James Brooke, a British explorer began exert rule over the region until 1946. It was occupied by Japan during WWII. After the war it became a colony of Britain. It became independent in 1963. After this several communist insurgents have attempted to overthrow the local government.

Sarawak is loaded with natural resources including their claim to part of the South China Sea. Gas, timber, oil and other products invite international corporations to explore and export them. The resources also are being greedily eyed by China.

Kuching, the expansive city of cats, is the capital of Sarawak and is a beautiful city filled with historical sites, markets, and cafés. The city is surrounded by national parks and beaches. It is important to note that this region is known as a cultural hearth, an area where the major population centers and populations began and exploded. A city size of over a million is not unusual.

## Amateur Radio Operations

As stated in the previous page Sarawak gained independences in 1963. Any contacts made on September 15, 1963 and before counts as this deleted entity. After that it became part of Malaysia.

The earliest QSL card is from 1926 BNSK2. It appears to be an SWL report.

## Tid Bits

### DXChat Discord Server (N6WS)

Hello SCDXC Member,

In the January Zoom meeting of the SCDXC, the topic of the Guys-Up-North (GUNs) Discord server was brought up as a common meeting place for daily DX activities. All SCDXC members are invited to join us on the GUNs Discord server. Please read this entire invitation email before initiating a connection to the GUNs Discord server.

The GUNs Discord server is a convenient meeting place for exchange of DX spots, DX information, tech support, and even some joking around. The server has voice channels and texting channels. The voice channels consist of:

- DX-Chat for general chats about DX
- Tech-Support for technical discussion to resolve problems
- EME-Sat for discussions and coordination of EME or Satellite QSOs
- The text channels for texting discussions and automated announcements:
- General DX is a general channel for text DX discussions and DX spotting
- Tech-Support is a general text channel for mutual tech support
- 6m-DX-Spots is a channel that has automated 6m DX spots originating from the western states
- DXpedition-Z345 is a channel that has automated DXpeditions spot originating in CQ Zones 3, 4, & 5
- Member-Spot is a channel that has automated spots of the GUNs Discord server
- Top-50-Needed is a channel that has automated spots of the top 50 needed entities
- DXpedition-Spots is a channel that has automated spots of DXpeditions originating from worldwide spots and the RBN
- Solar-Indices is a channel that has automated announcements from WWV and WCY
- Polls is a channel for originating polls
- GUNs-Rules is a channel that has the general rules of for operating on the GUNs Discord server (Read these rules)
- For-Sale-Swap is a channel you can list items you have for sale or list wanted items
- EME is a channel that has automated worldwide EME spots
- NCDXC-Chat is a channel that has automated NCDXC DX Spot emails (currently inoperative)
- Weather-Links is a channel that has the location information and links to some of the users' Weather system

The best way to initiate a connection to the GUNs Discord server is by downloading the Discord application, and install it on your PC, Mac, or phone. If for some reason, you don't like the application or connecting to the GUNs Discord server, you can easily uninstall the application at a later time. The Discord application is available at: <https://discord.com/> On this page you can select to download the application or open Discord on your browser. If you choose to open Discord in your browser you will go through a Captcha verification process, which never seems to work correctly. That is why I recommend using the application. After you install the application, you will be able to sign into the GUNs Discord server. When signing in use the convention of CALLSIGN-Name. My login is N6WS-Bill. Please use this convention so we know who you are, and your access will be approved as soon as we recognize you as a valid applicant.

When you first login, you will not be able to see most of the voice and text channels available. One of the system administrators will have to approve your access to the site. After initiating your first login, notify me at [n6ws@n6ws.com](mailto:n6ws@n6ws.com), and I will approve your access. Once your membership is approved you can then access the full server, and configure your Discord application to use the mic and speakers to work on the voice channels. As a convention, we use PTT. Please do not configure you application to use VOX. This will avoid random noises from disturbing others on the channel. Most users use their Insert key on the keyboard as the PTT key.

The link to the GUNs Discord server is:

<https://discord.gg/BCc3bG66>

You must use this invitation link within 24 hours. If you want an invitation link some time after 24 hours, just request it from me using my email address, [wmsshell@gmail.com](mailto:wmsshell@gmail.com).

73, Bill

West Mountain Radio RIGrunner 40012	\$70.00	X	
Yaesu FT-8800 Dual Band XCVR	\$200.00	X	No longer in production

**W7RN Station**

Unfortunately, my four-month battle with COVID has left permanent damage to my body. I cannot continue with my current workload. Midge also has degenerating health issues. We've been forced to make the strategic decision to move back to Texas, where our 3 sons live, so we can have caretakers when it comes to that. Sometime this summer we will make the move. Before that, we must sunset W7RN. There are two options for that. First (and preferred) is to sell the house and station to another ham. This assumes that there precious few who could make such a life-changing commitment, so I am posting this before we make the decision to dismantle the station. Alternatively, we have a policy with Ham Estates to come dismantle the station and sell off the assets. Details are at <http://www.w7rn.com/w7rn-for-sale/>. Please distribute this to NCDXF, REDEXA, Mother Lode and any other source of potential candidates.

P.S. I am still committed to achieving life membership in NCCC this September.

Tom Taormina, K5RC  
ARRL Life Member

**KB6CIO Antenna Failure (N6WS)**

Requested a crew with a bucket to repair it. The team completed the repair in 2 hours.

## SCDXC / NCDXC Watch Face (N6WS)

This is the link to the Watch faces for the SCDXC and NCDXC.

This is for the round and square satches with WearOS.

## Propagation

Dr. Scott McIntosh says the peak of this cycle passed 6 months ago. He basis his prediction on an analysis that he developed based on past cycles. His estimate is that we have about 2 years before things start falling off. Sadly this cycle will outlive SCDXC.
